Experience Projects

Phoenix 🦋 | Github 🌐 | React.js, Next.js, Tailwind CSS, Firebase

May 2025

- Engineered a centralized learning hub utilizing **React.js**, **Next.js**, and **Tailwind CSS**, provisioning secure **Firestore Authentication** and **Firestore** to deliver customized developer dashboards for streamlined learning and progress tracking.
- Integrated **two** major RESTful APIs, **Codeforces** and **LeetCode** to dynamically aggregate and visualize algorithmic metrics, including contest rankings and problem-solving history, eliminating the need for manual performance tracking.
- Architected an interactive educational module featuring comprehensive Computer Science fundamentals, a curated collection of the top **100** technical interview questions, **live chatroom**, facilitating peer collaboration among **50+** concurrent users.

AdyamShilp 🦋 | Github 🌐 | React.js, Node.js, Express.js, MongoDB, AWS

January 2025

- Built and deployed a full-stack **e-commerce web application** using **React.js** frontend and **Node.js/Express.js** REST API backend hosted on **AWS Elastic Beanstalk**, with **AWS S3** for scalable image storage and **MongoDB** for persistent data management.
- Created a real-time **personalized recommendation engine** using React Context API and LocalStorage, implementing a custom **multi-signal scoring algorithm** with recency decay, price affinity, and category weighting to deliver tailored product suggestions.
- Developed a full-featured **admin dashboard** with **JWT-based authentication**, enabling automated product and inventory management via RESTful APIs, improving operational efficiency and backend reliability.

Mdfeed | Github 🌐 | C++17, TCP Sockets, Multithreading, AWS

July 2026

- Built a real-time market data distribution server in **C++17**, utilizing **POSIX TCP sockets** to stream live order book updates to multiple concurrent clients; deployed to **AWS EC2**.
- Designed a thread-safe order book utilizing an **MRSW lock**, benchmarked at **37M reads/sec** single-threaded and **5M updates/sec** under 4-thread contention; patched a use-after-free data race verified by **ThreadSanitizer**.
- Engineered a custom pipe-delimited network protocol with **microsecond latency tracking**, sequence-based gap detection, and a **1,000-tick sliding replay buffer** for automatic client state recovery.

Technical Skills

Languages: C, C++, Python, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS, React Native, Bootstrap, Framer Motion, REST APIs

Databases: MongoDB, MySQL, PostgreSQL, Redis

Developer/Cloud Tools: Git, GitHub, Linux, Windows, Bash/Shell Scripting, CI/CD, Docker, AWS (EC2, S3), Firebase, Vercel, Netlify, VS Code

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks, Concurrency, Multithreading, Synchronization, TCP/IP, High-Level Design

Certifications & Achievements

- LeetCode (Max Rating: 1717):** Ranked **641/21,165** in Weekly Contest 378 and **2,444/24,517** in Contest 380.
- Codeforces (Max Rating: 1303):** Achieved **Pupil** rank.
- CodeChef (Max Rating: 1517):** Ranked **669/20,041** in START133.

Extracurricular Activities

Algorithmic and Programming Society, NIT Rourkela

October 2023 – April 2026

Technical Team Coordinator

- Led a cross-functional team of **15+ developers** to organize **AlgoUtsav 2.0**, NIT Rourkela's flagship ICPC-style national contest attracting **500+ participants**.
- Directed **10+** coding contests, DSA workshops, and guest lectures impacting over **1,000 students** and strengthening campus programming culture.

Cosmopolitan, NIT Rourkela

October 2024

Event Management Team Coordinator

- Managed large-scale logistics for **Cosmopolitan 2024**, one of Eastern India's largest cultural fests, ensuring smooth execution of **5+ sub-events** with over **4,000 attendees**.
